Mastery of Awareness

We all like to believe we know how the world works, we think we know what is. But we don't. As humans we have tunnel vision, we are only aware of a narrow and limited perspective of reality. There are infinite realities. In Mastery of Awareness you will learn new ways to perceive. You will learn to hunt yourself and how you move in the world. You will begin to enjoy new perspectives, new realities where your life opens to wonderful possibilities and limitless potential.

Mastery of Intent

Once we begin to know who we really are, we are ready to move forward in the directions we choose. Rather than be pushed and pulled, where we do what we have to, when there isn't enough time, we take back control of our lives. This requires Intent, a form of energy combined with focus. Much more than desire or want, Intent is an energetic fact. Learn to understand how Intent works, and how to go with it's flow.

Mastery of Love

This is where life begins! Combining Awareness and Intent, we learn personal Power, self responsibility and freedom. This is only possible with Love. Our hearts need to be clear, our minds need to be clean, and our vision true. In this way we move forward confidently, impeccably and lovingly.
